

Exercise 4

Thanvi Garigipati

The NHANES data set is collected by the CDC and is a survey that assesses a participants (all ages) health and nutrition. This report focuses on the demographics of the data including Age, Gender, and Ethnicity and their relationship with Systolic Blood Pressure readings.

NHANES Tables

Wave	Number of Male Participants in NHANES Survey in each Wave		
	Total Sample size (n)	Male (n)	Male (%)
2015	10175	5003	49.2
2016	9971	4892	49.1
2017	9254	4557	49.2

Wave	Ethnicity Distribution in NHANES Survey in each Wave		
	Ethnicity	Ethnicity (n)	Ethnicity (%)
2015	Asian	1074	10.6
2015	Black	2267	22.3
2015	Mexican	1730	17.0
2015	Other	470	4.6
2015	Other Hispanic	960	9.4
2015	White	3674	36.1
2016	Asian	1042	10.5
2016	Black	2129	21.4
2016	Mexican	1921	19.3
2016	Other	505	5.1
2016	Other Hispanic	1308	13.1
2016	White	3066	30.7
2017	Asian	1168	12.6
2017	Black	2115	22.9
2017	Mexican	1367	14.8
2017	Other	634	6.9
2017	Other Hispanic	820	8.9
2017	White	3150	34.0

Wave	Average systolic blood pressure (mmHg)				
	Minimum SBP	Maximum SBP	Median SBP	Mean SBP	Standard deviation
2015	64.66667	228.6667	115.3333	118.3159	18.06375
2016	74.00000	231.3333	117.3333	120.4020	18.39507
2017	72.66667	234.0000	118.0000	121.6625	20.27890
